What we're talking about

How to use `vid-from-pdf`

```
1  vid−from−pdf  allows  mixing  pdf−presentations  with  audio  clips.
     It's  acts  as  a
2  wrapper  and  UI  around  ffmpeg.  There  is  a  web  based  and  a
     terminal  interface
3  dependening  on  your  needs.  For  local  scripting,  there  is  also  a
     mode  where  the
4  API  between  web  server  and  frontend  is  also  available  on  stdin/
     stdout.
